Hungarian Reds Confirm Strikes Paralyze Nation

VIENNA, Austria, Nov. 18 (AP)—The government imposed on rebellious Hungary two weeks ago by Russian tanks confirmed tonight that strikes are still paralyzing many parts of the nation. It threatened stern measures to liquidate armed groups and "terrorists."

Gyorgy Marosan, minister of state in the Janos Kadar government, told Hungarians over Radio Budapest today that "Western imperialists" now were agitating for prolongation of the strike.

The strike, which apparently has brought a large segment of Hungarian industry to a standstill, was started by rebelling workers to enforce their demands for independence, freedom from Russian dictation and the restoration of Premier Imre Nagy, Titoist Communist, to power.

Deportation Protest

In recent days, the strike has hardened as workers protested bitterly against deportation by the Russians of thousands of Hungarians. Whether these victims of Soviet wrath have been sent to Russia or locked up in camps in the countryside has not been definitely confirmed.

Marosan said in his speech that in different parts of the country, "agitators are hampering us and armed groups by terrorist acts and threats the resumption of work" in Hungary's factories and mines.

Radio Budapest claimed in a broadcast this morning that these armed groups were threatening workers that wanted to go back to their jobs and that orders had gone to "round up, arrest or liquidate them."

"False Rumors" Denounced

But, this newscast said, "Rumors of deportations, spread by the counterrevolutionaries, are without foundation. Not one single person has been deported to the Soviet Union."

Budapest Radio admitted such deportations last week but this morning's broadcast said false rumors of deportations were being spread "to create unrest among the population and to destroy the good relations between the Hungarian people and the Russian soldiers."

Ports Remain In Strike Grip

NEW YORK, Nov. 18 (AP)—Docks from Maine to Texas remained idle today as a strike of 60,000 longshoremen passed its third day.

Ports all along the East and Gulf coasts were in the grip of the walkout, with only a few isolated dockings breaking the more than normally quiet Sunday.

No strike talks were scheduled before tomorrow at 2 p.m.

At a North River pier in Manhattan, the liner *Parthia* tied up under the eyes of four pickets from the striking International Longshoremen's Assn. (Ind.).

The 100 passengers from Liverpool were helped by Cunard Line employees in getting their luggage off the ship, a job normally done by longshoremen.

At Wilmington, N. C., longshoremen agreed to work the Bermuda cruise ship Stockholm arriving with 421 passengers.

Poster Girl Chosen

NEW YORK, Nov. 18 (AP)—Four-year-old Marlene Olsen of Burlington, Mass., has been named 1957 March of Dimes poster girl, it was announced today by Basil O'Connor, president of the National Foundation for Infantile Paralysis.

Marlene, daughter of Air Force Capt. and Mrs. Arnold Olsen, was stricken with polio in the summer of 1955.

Ambassadors Leave Room During Blast

MOSCOW, Nov. 18 (AP)—Nikita S. Khrushchev dampened a diplomatic reception again tonight with a political monologue so bitter that envoys from NATO nations and Israel stalked from the room. Egypt and Hungary were his main themes.

"If you don't like us, don't accept our invitations and don't invite us to come to see you," the Soviet Communist party boss suggested, red-faced and gesticulating.

"Whether you like it or not, history is on our side. We will bury you."

The scene was a Polish Embassy reception following the signing of a Moscow-Warsaw joint declaration which some Poles hailed as a virtual declaration of independence, though Poland remains firmly within the Communist family of nations.

Bohlen Walks Out

There was a similar walkout last night at a Kremlin party honoring the Poles at which Khrushchev denounced "imperialists and their puppets" in a heated appraisal of the Egyptian war as a threat to world peace. He also blasted at "fascist gangs" in Hungary.

That sent the envoys, including U. S. Ambassador Charles Bohlen, to the exits.

Tonight they retired to an outer room.

"The atmosphere is much more pleasant," a European diplomat said.

All returned to the reception when Khrushchev finished speaking.

Gomulka Speaks

Wladyslaw Gomulka, the Polish Communist party boss, had said in a statement:

"In the previous period, fraternal relations between the Soviet Union and Poland were overshadowed by distortions and mistakes arising from what was called in brief the 'cult of personality.' But let me say today with full force that the results of our talk fully confirm that the Soviet Union's declaration of Oct. 30 was not empty words, but real facts, expressed in the present adjustment of relations between Poland and the Soviet Union on the socialist principle of full equality."

The Soviet government announced Oct. 30 it was ready to discuss the disposition of Soviet troops in Hungary, Poland and Romania with other members of the eight-nation Warsaw Pact.

Bulgaria is a member of the Communist Warsaw Pact—the Soviet version of NATO—but previously did not have Soviet troops stationed on her soil, as they were in Hungary, Poland and East Germany.

Previous reports seeing out of Bulgaria to Vienna had told of reinforced security guards and "alert" orders being given to the satellite's army and secret police.

There were some reports of student disorders and worker complaints.

The West German newspaper Die Welt reported earlier today that a bloc of 23 "Titoists" had been formed in the Central Committee of the Bulgarian Communist Party.

Bulgaria is bordered by the Black Sea and Romania, Greece, Turkey and Yugoslavia.

The reports, Reuters said, were that Soviet tanks and infantry were being deployed along the Black Sea coast near the Turkish frontier.

The Red army units were said to have been shipped across the Black Sea from Russia and to have landed at the Bulgarian city of Varna.

Reuters said the reports indicated that the Russian troops were being stationed near the Turkish border to guard against domestic outbreaks and not to pose a threat to Turkey itself.

Boxcar Shoved Into Home Kills Family Of Three

HOUSTON, Tex., Nov. 18 (AP)—A box car of a switching freight train crashed into the bedroom of a home about dawn today, killing a family of three.

They were: Hilliard Davis Harris, 31; his pregnant wife, Johnny Mae, 21; and their year-old daughter, Jacqueline Vanita.

They died instantly when the boxcar, on the end of a 21-car Southern Pacific lines train, was shoved through a steel safety bumper into the house, knocking them out of their bed and burying them under a mass of debris.

The car slammed 15 feet into the house.

War Dead Mourned

BONN, Germany, Nov. 18 (AP)—West Germans today mourned the dead of two world wars in solemn ceremonies throughout the nation and in West Berlin.

Halley Critical

NEW YORK, Nov. 18 (AP)—Rudolph Halley, counsel to the Keauver Senate Crime Investigating Committee five years ago, was reported in critical condition today at Mount Sinai Hospital.

Halley, 43, is suffering from acute pancreatitis, an inflammation of a gland in the abdomen behind the stomach.

Kennan Predicts Revolts Start Of Soviet Downfall

NEW YORK, Nov. 19 (AP)—George Kennan, former U.S. ambassador to Russia, predicts "the Soviet will never recover" from the recent revolts in Poland and Hungary.

Kennan's interpretation was reported by writer Joseph Alsop in the Saturday Evening Post. Kennan believes the uprisings resulted from three factors:

1. The Eastern European peoples have always had a higher standard of living than the mass of the Russian people and they have also been much farther advanced in constitutional liberties and personal freedom.

I think that the recent developments in Poland and Hungary are bound, sooner or later—and I don't predict the timing—to mark the end of Moscow's abnormal power and domination throughout all of Eastern Europe. The same fundamental forces are plainly at work throughout the whole area."

2. The Soviet system is deeply wrong—wrong about human nature, wrong about how the world really works, wrong about the importance of moral forces, wrong in its whole outlook.

Oil Pinch Hits West Europe Auto Owners

Sunday Motorists Stay Off Highways; Gas Rationing Seen

LONDON, Nov. 18 (AP)—Thousands of automobile drivers in Britain, Sweden and Switzerland stayed off the highways today and most of Western Europe cut down on uses of dwindling oil stocks. Rationing of petroleum products was here or on the way in many countries as the pinch resulting from the Middle East war squeeze began to hurt.

In Britain today's stay-at-home move was voluntary—in answer to a plea by the government to cooperate in saving petroleum products that come largely from Middle East pipe lines and through the Suez Canal.

The Swiss government, however, banned Sunday motoring, except for special cases, as a fore-runner to full-scale rationing expected next month. The disciplined Swiss took the ban seriously and policemen at special check points had little to do. The government had included all private motor traffic from trucks to bicycles with tiny engines.

Sweden Orders Cuts

Sweden banned private motoring on weekends and directed filling stations not to sell any gasoline on weekends.

Britain's Automobile Assn., to which thousands of motorists belong, reported a "dramatic reduction" of traffic on the highways despite the all-too-rare bright blue weather in some places. Traffic was down 50 per cent.

That sent the envoys, including U. S. Ambassador Charles Bohlen, to the exits.

Tonight they retired to an outer room.

"The atmosphere is much more pleasant," a European diplomat said.

All returned to the reception when Khrushchev finished speaking.

The convention forbids specific actions aimed at extermination of a national, racial or religious group. The resolution now merely recalls its "principles" particularly clauses against subjecting a group to unbearable conditions and against transferring its children to another group.

Cuban Ambassador Emilio Nunez-Puerto said the change would allow countries to vote for the proposal even if they had not ratified the convention, since "the principle is effective for every civilized nation." He mentioned no names.

The United States has not ratified the agreement. Hungary and the Soviet Union are among 54 countries that have. The resolution notes their ratifications.

Nunez-Puerto said he expects it to pass by a substantial majority in the 79-nation Assembly, which will debate it tomorrow.

Circle K Club To Sponsor Talent Show At Keyser

KEYSER — An array of campus talent is expected to participate in the fifth annual Circle K Club Talent Show which is on tap for Wednesday, December 5, at 8 p. m. in the Administration Building auditorium at Potomac State College.

The preparations for the show has been attracting greater than usual interest each year among both those on the campus and in the Keyser area. Last year's winners, the Phi Sigma Nu Fraternity quartet composed of Arnold Smith, Clayton Mills, Jack Harvey and Gary Swadley, was in demand for repeat performances many time following the contest, both on the campus and before local area groups.

Other popular winners were Theta Sigma Chi Fraternity's Rhythm Combo, including Robert Houser, James Rinard, Fred Pfeiffer, Thomas Lowry and Victor Bisillo, and Miss Margaret Griffin, soprano soloist, entered by Sigma Iota Chi Sorority.

Any act which, in the opinion of the committee, can be classified as entertainment, may be entered in the show. These may include, for example, solo or group singing; solo or group playing of musical instruments; solo, couple or group dancing; whistling, imitations, acrobatics, dramatic reading and the like.

Cash prizes will be awarded as follows: First prize, \$15; second, \$10, and third, \$5. An entrance fee of \$5 per act will be charged, of which four dollars will be returned to the individual or group entering if the act is presented. If the contestant fails to appear,

Israel Rejects Bulgarian Demand It Pay Egyptians

JERUSALEM, Nov. 18 (AP)—Premier David Ben-Gurion tonight rejected a Soviet demand that Israel pay Egypt compensation for the Israeli invasion.

In a sharp reply to the Soviet Union, Ben-Gurion insisted that if anyone was entitled to compensation it was Israel.

Ben-Gurion's note was handed to the Soviet chargé d'affaires in Jerusalem.

Soviet Premier Nikolai Bulganin in a note Thursday called for compensation to Egypt for the Israeli attack. Similar Soviet notes were sent to Britain and France.

"If there is a case for claiming compensation," Ben-Gurion's note said, "it is we who are entitled to compensation for the Egyptian invasion of our country in 1948, for the death of thousands of our sons and daughters as a result of this aggression, for economic boycott and maritime blockade main-

tained in defiance of the U.N. charter and Security Council resolutions, for hundreds of Israelis—Jews and Arabs—murdered by the Fedayeen (Egyptian commandos), for all the damage caused to our economy, running into millions of pounds."

"However, if peace is established between Egypt and ourselves, we shall be ready to forgive all the past transgressions of the Egyptian rulers."

Intelligence Units Held "Delinquent"

WASHINGTON, Nov. 18 (AP)—Sen. Mansfield (D-Mont) said today he thought U.S. intelligence agencies had been "delinquent" in reporting on present troubles abroad.

"We were caught short," Mansfield said. "We were caught by surprise in Poland, caught by surprise in Hungary, caught by surprise in the Middle East."

Mansfield said he thought the Central Intelligence Agency, the National Security Council "and all our intelligence arms have been delinquent."

In a televised interview—ABC—"College Press Conference"—The senator said he would not urge a congressional investigation. Instead, he said, he advocated a joint congressional committee to act as liaison with the intelligence agencies.

Ferry Survivors Found

TAIPEI, Formosa, Nov. 18 (AP)—The Central News Agency reported today that six survivors from Friday's ferryboat disaster have been found on a reef in the Pescadores Islands.

The ferryboat—carrying 102 persons—sank after hitting a reef while bound from Kaohsiung in southern Formosa to the Pescadores. The Central News Agency originally reported that all aboard—including 25 nationalist soldiers—perished.

Refugees From Hungary Head For New Homes

VIENNA, Nov. 18 (AP)—Refugees from Hungary, now numbering nearly 40,000 in Austria, began moving in large numbers today to their new homes in Western countries.

Amid tearful scenes of farewell, 15 left by train for Paris, while 200 started for Passau, West Germany. Early next week, the first of 5,000 are expected to start for the United States.

They are still dribbling into Austria in small groups. Yesterday, in the province that covers most of Austria's border with Hungary, 1,850 refugees came over in 12 hours and in the next 12 hours there were an additional 600.

Some brought hair-raising stories of being fired on by Russian or Hungarian troops, others said they got across with little trouble.

Many countries—including the United States, Britain, Canada and Austria itself—are taking refugees. Some of the countries, such as Belgium, the Netherlands, Germany, Switzerland and Sweden want them to help out with a labor shortage.

Reindollar Funeral Services Tomorrow

BALTIMORE, Nov. 18 (AP)—Funeral services will be held here Tuesday for Robert M. Reindollar, who started in the highway-building field as an office boy and rose to the chairmanship of the Maryland roads commission before his retirement in 1950.

Reindollar died yesterday in Union Memorial Hospital after an extended illness. He was 62.

Joining the State service in 1908 as an employee of the old Maryland Geological survey, he switched to the roads commission office two years later.

In 1945 he was appointed by Herbert R. O'Conor, then governor, to the chairmanship of the commission, and under his administration were planned two of the state's greatest projects—the 7,727-mile over-water carry and the 12-year, 950-million-dollar highway program.

Aged Woman Found Mysteriously Slain

MATTOON, Ill., Nov. 18 (AP)—Mrs. Mary Walker, 82, of nearby Lerna, Ill., was found mysteriously slain in her home today.

Oran Gammill, a grocer who called to make a delivery, said he discovered Mrs. Walker slumped in a chair with the radio going. Police said she apparently had been shot to death late yesterday.

Authorities were unable to give any motive for the shooting. Mrs. Walker lived alone and apparently was of average means, police said.

Fire Razes 200 Homes

SANTIAGO, Chile, Nov. 18 (AP)—Fire raced through suburban San Ignacio last night, destroying 200 homes. Firemen said at least three children perished and many persons were injured. About 2,000 were made homeless.

Woman In Coma 169 Days Gives Birth To Baby Boy

NEWCASTLE, England, Nov. 18 (AP)—An expectant mother, unconscious for 169 days from a brain injury, gave birth today to a baby boy. Mother and son were reportedly doing well.

Mrs. Ellen Moore was wheeling her first child May 4 when a truck swung around a corner and a 30-foot log flew off it and struck her in the head. Efforts to revive her failed. Doctors gave her deep freeze treatment, reducing her body temperature 12 degrees below normal. After a week of virtual hibernation, she began to recover. Finally after months of unconsciousness while thousands eagerly followed reports of her progress, she regained consciousness and recognized her husband, Kenneth, a 25-year-old salesman.

Jet Plows Into Two Parked Bombers, Killing 3, Injuring 7

LINCOLN, Neb., Nov. 18 (AP)—Four of seven airmen injured when a jet fighter plane crashed into two parked B-47 bombers—killing three persons—at the Lincoln Air Force Base last night were still hospitalized today.

The crash and ensuing fire destroyed an estimated six million dollars worth of aircraft. The F-86 fighter pilot killed was identified as Lt. Robert L. Young, 23, of Lincoln, a member of the Nebraska Air National Guard.

The Empire State building in New York City is struck by lightning 40 to 50 times a year.

School's A Pleasure

Airview of Hillsdale High School, San Mateo, Calif. In far back is athletic field. Court in center is students' favorite gathering place. White squares on roof are top-lighting units which provide daylight to classrooms inside.

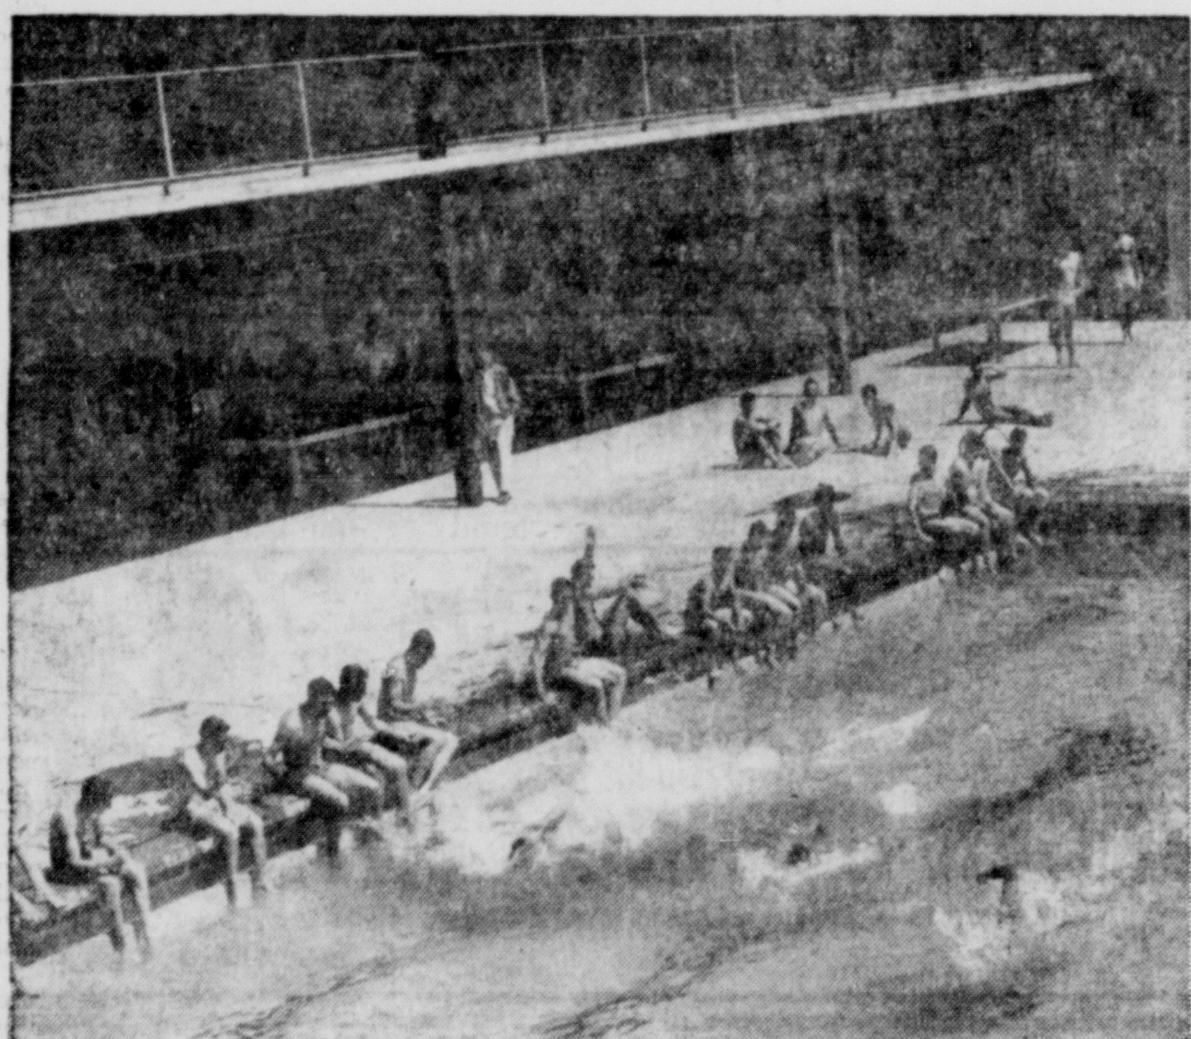

Student makes announcement of school activity over intercom system which carries voice over loudspeakers to all parts of the school.

The little red schoolhouse seems like a faded relic of the long, long ago when one takes a look at the new Hillsdale High School in San Mateo, Calif. It's one of the most modern schools in the country.

Hillsdale, on a 35-acre slope overlooking San Francisco Bay, incorporates some unique features. It has classrooms without windows. These rooms receive all their daylight illumination from overhead panels of prismatic glass block. There are no stairs. The building has ramps leading from one level to another. The walls are movable partitions. A classroom or office gets too small? Just move the walls. It has a large outdoor swimming pool, a little theater, an auditorium that can seat 1,000, boys' and girls' gyms, and a cafeteria with a snack bar. It's built around a large court, with benches and paths, where the students can relax during rest periods.

The school, built at a cost of more than 3 million dollars, took two years in the planning before it was opened last winter. It has been cited as a model for schools throughout the country.

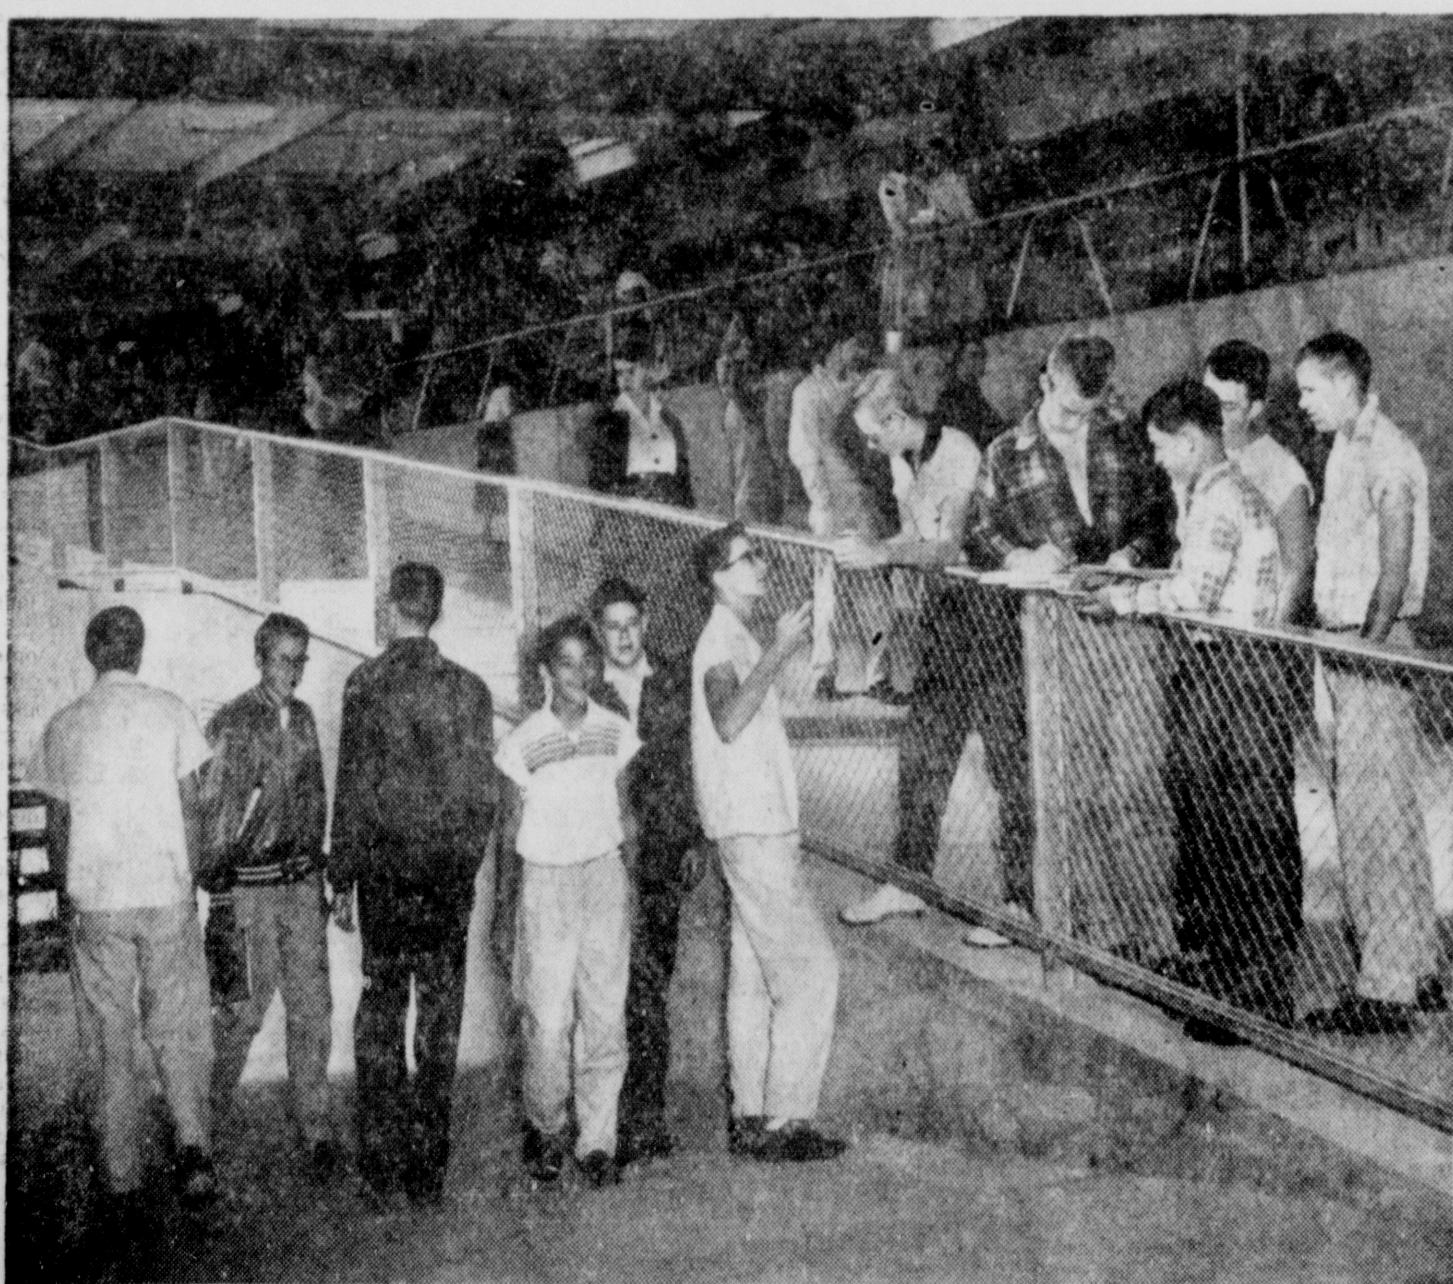

Swimming is popular sport at Hillsdale. Pool is in school's central plaza.

Wall is about to be moved to make more class space. Walls in school are of metal and are moveable.

Typing room is last word in modernity. The walls are moveable. There are no windows. All light comes from squares overhead.

Traffic gets heavy at times on the ramps which lead from one level to another. There are no stairs.

Forecourt, directly behind main entrance, is a favorite gathering place at class "breaks."

Olympic Squabbles Are Nothing New

On Thursday a day most Americans will spend in peaceful Thanksgiving—the Duke of Edinburgh will declare: "I proclaim open the Olympic Games of Melbourne celebrating the XVI Olympiad of the modern era." If the Olympics Down Under live up to their advance notices, sweetness and light may not be the order of the day.

Egypt, which withdrew in August—ostensibly because it has no athletes of Olympic calibre—later wanted the teams of Britain, France, and Israel, nations "guilty of cowardly aggression against Egypt," expelled from the games. The Chinese Reds, in a pet because Chinese Nationalist flags had been raised in Melbourne, withdrew their team. Iraq dropped out because of Israeli participation.

Spain, the Netherlands, and Switzerland withdrew in sympathy with embattled Hungary. Then on November 11 Switzerland reversed its decision. The Hungarian athletes agreed to participate only after the Communist Hungarian flag was replaced by the traditional Hungarian banner. The Czechs are reported to be snubbing the Hungarians, and the Hungarians aren't speaking to the Russians.

First held in Athens in 1896, the modern Olympics are the result of the efforts of the late Baron Pierre de Coubertin, a French educator, who wanted to toughen French youth. The Baron had been inspired by accounts of the ancient Greek Olympic games, held every four years for nearly 12 centuries—776 B. C. to 394 A. D.

Above all, de Coubertin wanted to promote international understanding. So the International Olympic Committee recognizes only the winners of separate events. The national scoring is determined by an unofficial press compilation accepted in all countries except those of the Soviet bloc.

President Avery Brundage (U. S.) of the International Committee urged that the unofficial national rivalry be dropped. "If this becomes a giant contest between two great nations," said Brundage, "the spirit of the Olympic Games will be destroyed."

But that spirit had been threatened in the past. In London in 1908 an American flag-bearer boasted, "This flag dips to no earthly king." In Berlin in 1936 the Nazis were always embarrassed by victories of what one Joseph Goebbels called U. S. "Black Auxiliaries."

These Days

By George E. Sokolsky

The Uneasy Truce

It needs to be repeated and reiterated to this generation that prefers historical novels to history that a major historical error can never be corrected except by war or revolution because the chain of events which the error lets loose moves too rapidly and establishes positions unmovable by ordinary means.

The Israel-Egypt truce of 1949 is such an error because a boundary line was drawn which is geographically and politically incorrect. Therefore since 1949 there has been no peace in the Middle East and it is not likely that there can be peace in the Middle East as long as Soviet Russia is willing to pay for the disturbance in that area. I quote from Sir Anthony Eden:

"... Egypt has been insisting, ever since then, that she is still at war with Israel. Again and again the United Nations tried to bring settlement and peace, but with the best will in the world it's failed, and all the time, Heaven knows, this country has worked tirelessly for agreement."

Great Britain's solution was to appease Egypt and to take a chance that Israel would accept the appeasement as reasonable in the circumstances. Israel was paid the compliment of being more understanding, more intelligent, more European, and therefore more amenable. The United States followed the British policy, however without British flexibility. Eden stated the British policy thus:

"We've tried, for example, to prove our desire for friendship with Egypt. We made an agreement and withdrew from the Canal Zone. We made another agreement about Sudan. We hoped that these would lead to a new spirit in our relations with Egypt. Some people say we've gone much too far in conciliation, that we gave up too much, that we have been weak where we should have been strong. Well, that is as it may, we've certainly gone to the limit in our efforts for friendship. All those friendly approaches have failed. It's no use blinking that fact. You've only read the Egyptian Government's own statements on what it intends to do, its words, not mine... (Nasser said:) 'There will be no stability until this small but vile state (Israel) is stifled.'"

Israel defeated Egypt on the battlefield in 1948-9; Israel defeated Egypt on the battlefield in 1956. However, in 1956, Egypt was plentifully supplied with planes, tanks and arms, provided by Soviet Russia and Red Czechoslovakia. These toys the Egyptians apparently did not know how to use and it is reported that about half the supply either fell into the hands of the Israeli or were bombed by the British and French planes. Israel claims an enormous booty of Russian and Czechoslovakian supplies found in the Sinai Desert where the Russians had created a base about which our intelligence knew nothing.

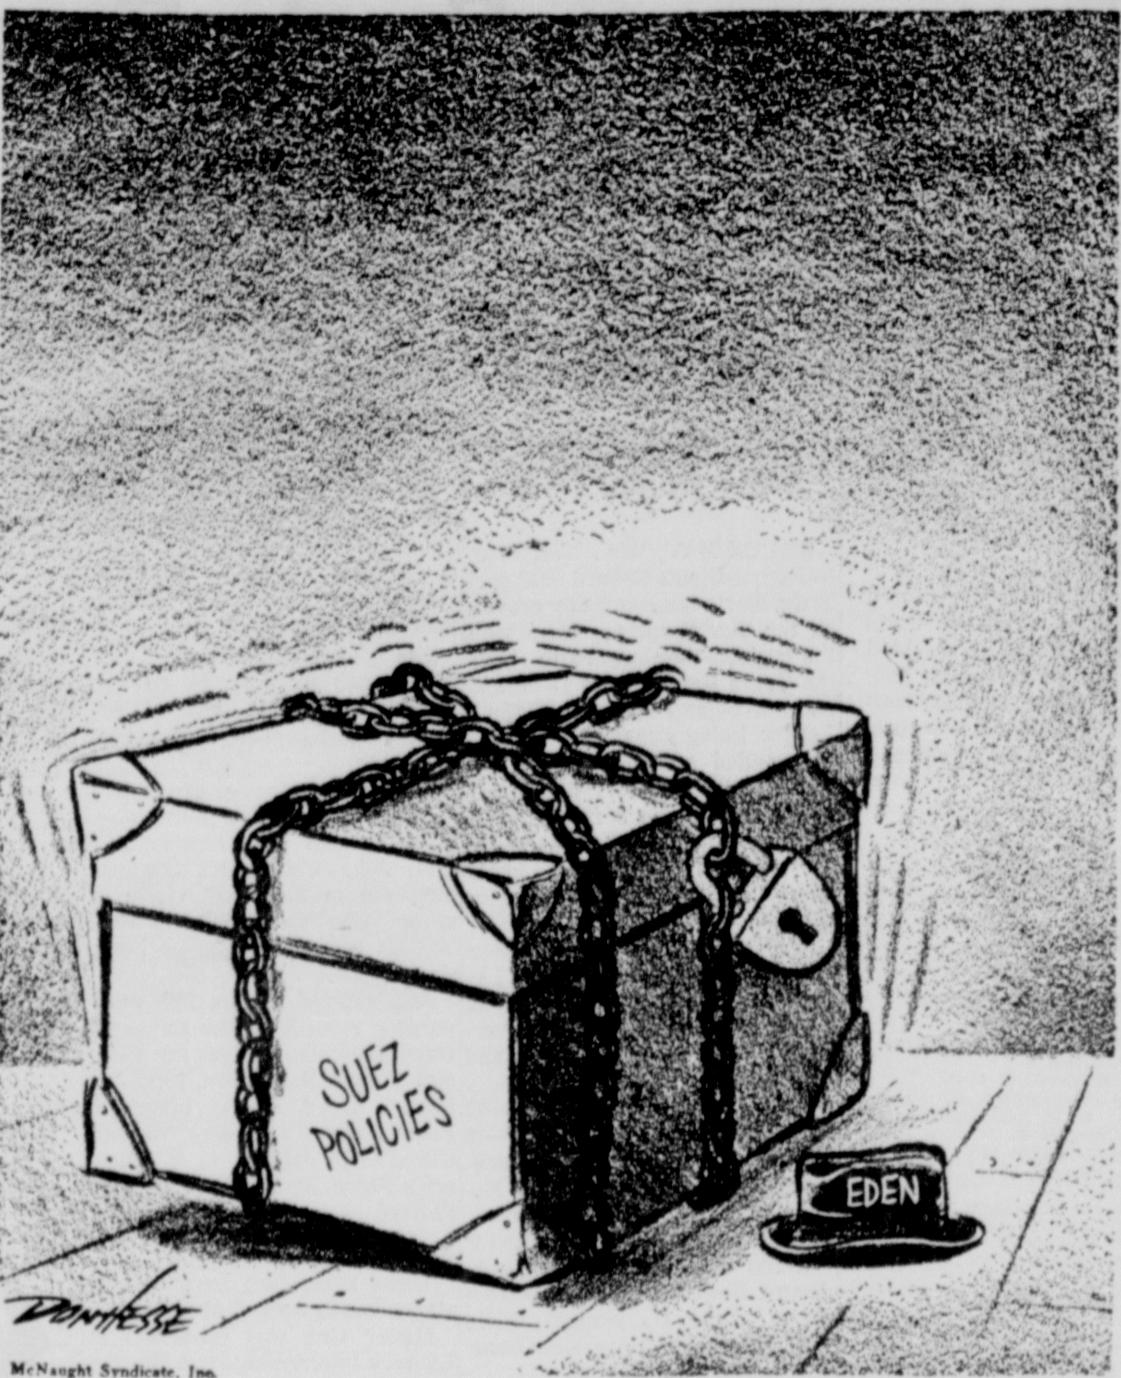

Appeasement of Egypt when Farouk was king meant little more than feeding his egomaniacal highness with the means for satisfying his private lusts. Appeasement of Egypt under the dictatorship of Nasser encouraged this curious African Hitler to believe himself to be a man of destiny. He turned upon the West because he no longer feared the West; he became a Soviet puppet and was duly compensated for his perfidy. His role is to distract the world; he has played his role to a degree.

Hugh Gaitskill, Labourite leader and prospective Prime Minister, is quoted by Sir Anthony Eden as having said:

"It's all very familiar, exactly the same as we encountered from Mussolini and Hitler in those years before the war." But Gaitskill had no method of dealing with the pattern he so correctly identified.

Escape Artist?

U.S. Hands Mid-East To Kremlin On Silver Platter

By Joseph and Stewart Alsop

WASHINGTON

It will take a long time to add up the full cost of the disaster in the Middle East, but its chief effect is already pretty clear. The most strategically vital region of the modern world has been handed to the Kremlin on a silver platter—with the American government as a rather conspicuous platter-bearer.

Or, putting it another way, the American government has energetically assisted in installing Egypt's President Gamal Abdel Nasser as the Soviet viceroy in the Arab lands. That is almost sure to be the practical result of recent events.

There is no use complaining, any longer, about the un wisdom of the Anglo-Franco-Israeli intervention in Egypt. The important thing now, is to realize the effects of the Anglo-Franco-Israeli failure to attain their aim. Their true aim was to topple Nasser from his position of vast influence and power throughout Pan-Arabia. Nasser was in fact toppled—for he could never have survived his humiliating military defeat by the Israelis without active American and Soviet help.

But the Egyptian Humpty-dumpty was put back on the wall again, partly by parallel Soviet and American action in the United Nations, partly by intense American pressure of our allies, and partly by the apparent Western surrender to loud Soviet threats. The last factor is the most significant, since all Arabs are now convinced that the Egyptian cease-fire was granted in response to the Bulgarian ultimatum to Britain and France.

The State Department, which used to call Nasser a Soviet stooge, now portrays him as full of gratitude to us. He has, it appears, been very nice to our new ambassador in Cairo, Raymond Hare. But in fact everyone with first hand knowledge of the Middle East is convinced that the Department's former view of Nasser is now more correct than ever.

Nasser's psychology is such that he will surely consider recent American actions were largely motivated by fear of the Soviets. He will feel that this country and the other leading Western powers turned and ran as soon as the Soviets began finagling a gun. Far more than in the past, he will look to the Soviet Union as his guide and protector.

Nor is this any more than the beginning of the story. Nasser both symbolizes and leads the predominant Nationalist movement throughout all the Arab lands. There is very little of the Spirit of '76 in this Nasser brand of Arab Nationalism. It is neurotically hate-ridden and viciously anti-Western. It is marked, above all, by the conviction that old grudges can now be vented on the Western powers with perfect

safety, because the West is now to weak-willed and impotent to respond to any provocation.

If Nasser had been toppled, it would have been like the slap on the face that doctors recommend as a cure for hysteria. The Arab Nationalists would have stopped screaming and drumming their heels on the floor, and would have started dealing with hard realities. They might then have begun to act as serious Nationalists, offering constructive programs for their own countries, and forthrightly seeking a constructive accommodation with the Western nations.

But since Humpty-dumpty has been put back on the wall again, the opposite effects can be anticipated. Nasser's followers in other Arab lands will of course take notice of the Israeli's brilliant victory. This will be chil-

ed by demonstration that Nasser's vaunted military power is a busted flush. But this setback for Nasser will be more than balanced by the enhanced prestige of the Soviet Union, and the reflected glory of Nasser as the Kremlin's special Middle Eastern favorite.

What must now be expected, therefore, is the progressive collapse of every remaining Western position in the Middle East, under the assault of the Nasser-led Arab Nationalist movement. Arab Nationalism will now be more inflamed than ever because of the fruitless attempt to topple its leader. It will be more confident than ever because of the apparent Western surrender to the recent Soviet threats. It will be more Soviet-influenced than ever because not only Nasser, but the Arab Nationalists everywhere will now tend to accept the Soviets as their guides and protectors. And the Soviets will use the Arab Nationalists, coolly and ruthlessly, as instruments to cut the Western alliance's oil jugular in the Middle East.

There are other probable consequences of the Middle Eastern disaster, such as the replacement of the present British government by a strongly anti-American Labor cabinet, the onset of political chaos in France, and so on. But this storm which is shaking the whole Western Alliance to its foundations still chiefly centers in the Middle East.

Maybe the British, French and Israelis were wrong to try to topple Nasser at all, and certainly the British and French played their part in the operation as badly as possible. But once the attempt had been started for good or ill, the fate of the Western Alliance automatically hung upon its success. That is the point the American government has refused to recognize. Maybe it is not too late, even now, to recognize this central point and thus salvage something from the ruins.

What This Means To Readers

Until then, those who now receive pensions, life insurance, social benefits for the aged, and social security can be severely hurt. Not only large investors will suffer. Already our own Government Bonds (the 2½s) have declined from 106 to 91.

The banks and insurance companies need not suffer. They receive deposits and premiums in "phony" money, but they will pay out with "phony" money. Wages will increase, but most banks and insurance companies are adopting automation to get on with fewer employees. Certain real estate and some commodities, such as natural resources, may for a while benefit from inflation. But the great mass of honest people will ultimately suffer and President Eisenhower will not prevent it.

The Cost Of Living

Readers should be interested only in what their wages, pensions, social security, and bank deposits and insurance will buy. We should forget all about dollars and think only of what can be purchased in terms of food, rent, clothing, education, entertainment, etc. I definitely forecast that the cost of living will gradually increase during the next four years of the Republican Administration.

The promise of new highways, slum clearance, and other worthy projects will all cost more than expected. When you go under a new steel bridge on one of these new highways, remember that from 1946, when the Employment Act became law, to the present time, the price of steel has just about doubled. Certainly the automobile industry and most of the increase in all plant capacity

deserves that the cost of living is no higher than it is today. Nevertheless, I forecast that automation, including electronics and nuclear power, will become great industries. All readers will be greatly interested in George R. Harrison's books, "What Man May Be" and "Atoms In Action."

What About Stocks?

The N. Y. Stock Exchange for the first time in history is urging that savings be put into stocks now instead of into savings banks, life insurance, and other such standard investments. Only the future can tell whether this advice is good. For the past 10 years the prices of stocks have been advancing, but how long will this continue? For every person who now buys stocks some other person equally wise, must be selling these same stocks. What would happen if all persons should decide now to sell instead of to buy?

Finally, let me remind readers that the cost of plant, book value, and various other statistics do not determine the value of a stock or the price which you receive when you want the cash. Ultimately the price of a stock depends upon the earnings. Inflation increases costs for corporations as well as for individuals and governments. Eisenhower's re-election cannot prevent dividends from being cut. Reduced dividends mean that the U. S. must increase taxes.

Russia Ordered Her 'Volunteer'

Reservists To Egyptian Duty

By Drew Pearson

Eden and Mollet had proposed a quick emergency conference with President Eisenhower in Washington last weekend but, after Dulles got into the picture, the White House agreed to let the French and British cool their heels for the time being.

The United States will now decide when the time is ripe for a Big Three meeting. When it does take place, Ike will be urged by his Secretary of State to read the riot act to the French and British prime ministers, warning them that they cannot get embroiled in war and then expect the United States to bail them out.

Merry-Go-Round

Harry Truman is having a hard time restraining himself from saying "I told you so." At the Chicago Convention, Truman predicted Stevenson would lose the election by a greater margin than in 1952. He is just itching to remind the Democrats about his prediction . . . Ike has been having trouble with the gold cap on his front teeth. He keeps jiggling it loose until it drops out . . . A tip to Republicans—Washington hotels are swamped with reservations for Inauguration Day. Better get your reservations in early . . . Ambassador Claire Bothe Luce will definitely resign as Ambassador to Italy . . . Real reason for the resignation of Arthur Burns as White House economic adviser was disagreement over high interest rates. Burns considers that the Federal Reserve Board's high discount rate may cause a recession. Randolph Burgess, Undersecretary of the Treasury, and Bill Martin, head of the Federal Reserve Board, didn't agree with him. They want a little "loosening" of the economy. They won. Burns resigned.

Crisis Capsules

The Air Force was ordered to prepare several H-bombs for immediate use—after Moscow sent its belligerent notes to Britain and France . . . All Central Intelligence officials have been ordered on the alert. If they go out to dinner at night they must leave a telephone number where they can be reached immediately.

Dulles Recovers

John Foster Dulles hasn't helped to soothe French feelings nor poured oil on Suez waters.

From his bed in Walter Reed hospital, Dulles has advised Minister Eden. He also advised that France and England must pay cash on the barrel head for oil from the United States.

Dulles is still sore over French and British entry into Suez without consulting him. He believes that refusal to advance credit for oil and refusal to meet with Mollet and Eden will help to force them out of Suez.

On The Election

By Roger Babson

BABSON PARK, Mass.—Now is the time to read the dangerous promises of all the successful candidates. These promises make more inflation inevitable, due to the Employment Act of 1946. This was a vicious act. Ray D. Murphy, Chairman of the Board of the Equitable Life Assurance Society, has an excellent article in the Commercial and Financial Chronicle of October 11 demanding that this Act be amended. I, however, cannot imagine President Eisenhower and the new Congress making such amendments until it is too late.

Depend on Steel

Steel and related industries employ 80 percent of our mass production workers.

Interesting Statistics

The expenditures which can depend on government money will continue, but expenditures for products bought on installments may suffer. Here are some more figures to think over! Since 1939 the Government debt has increased from \$40 billion to \$275 billion resulting in an increase in the money supply from \$63 billion to \$213 billion and private debt has risen from \$125 billion to around \$350 billion.

What This Means To Readers

The great surprise to economists is that the cost of living has not gone up more during this period. The main reason is the new inventions and installation of new machinery reducing the need for labor. Inventors—not government or bank officials—deserve thanks that the cost of living is no higher than it is today. Nevertheless, I forecast that automation, including electronics and nuclear power, will become great industries. All readers will be greatly interested in George R. Harrison's books, "What Man May Be" and "Atoms In Action."

Try And Stop Me!

A rodeo cowboy shambled up to a side street hotel desk and said, "Gimme a \$2 room, Chief." "Sorry," said the clerk. "Those rooms are \$4 now." "What a gyp!" growled the cowboy. "Whose idea was that?" "The new owner's," sighed the clerk. "This hotel has changed hands." The cowboy slung his duffle-bag over his shoulder and exited with, "Tell the new owner this: Who's been here has changed hotels."

Iowa, Oregon State, Tennessee Seek Bowl Berth OK

Colorado Is Approved For Orange Bowl

Northern Teams Shut Out Of Sugar Bowl By Segregation Law

By ED WILKS
The Associated Press

Iowa, Oregon State and Tennessee can start packing their bags, but only Colorado has an official "okay" for a major postseason bowl berth today. The rest of the who plays who? situation for the New Year's Day classics remained as snarled as Saturday night traffic on Main Street.

When Oklahoma eliminated Mississippi by crushing the Tigers 67-14 for its 38th consecutive victory Saturday, Colorado became the undisputed Big Seven Conference runnerup. And before the day was out, Commissioner Reeves Peters announced the Buffaloes had been officially notified they will represent the conference in the Orange Bowl.

Colorado Wins Sixth

Colorado, its league season finished, defeated Utah 21-7 for a 6-2 record with one game left.

Oklahoma, the continuing Big Seven champion, is banned from a repeat trip to the Miami, Fla., bowl.

Iowa and Oregon State need only the formal approval of their respective Big Ten and Pacific Coast conferences to make their return match in the Rose Bowl official. And Tennessee, the ranking power in the Southeastern Conference, probably could have its choice of either the Sugar or Cotton bowls.

But after those four teams, it's every man for himself.

Georgia Tech, beaten only by Tennessee (6-0), seems a cinch to wind up with a sixth consecutive bowl bid—perhaps to the Cotton or to the Sugar in a rematch with Tennessee that would be a natural.

Law Bans Syracuse

A Louisiana segregation law shuts out most northern bowl hopefuls, including Syracuse, which made a tremendous bid for a bowl invitation by clobbering Colgate 61-7. Jimmy Brown, a 212-pound Negro halfback scored six touchdowns and seven conversions for 43 points.

The selection committee for the Gator Bowl hasn't posted an official list of teams under consideration, but Syracuse, Navy, Pitt, Baylor, Wyoming or, of course, Tennessee and Georgia Tech, would make 'em happy.

Baylor still is in the running for the Cotton Bowl host spot along with Texas Christian and Southern Methodist in a fight for the runner-up spot in the Southwest Conference. Texas A&M, which clinched at least a share of its first title since 1941, by trimming Rice 21-7, is banned from the bowl by NCAA probation.

SMU Faces Baylor

SMU, dropped by Arkansas 27-13, and Baylor, which rapped non-league foe Nebraska 26-7, beat it out this week while TCU, which thumped Texas 46-0, meets Rice.

The other half of the Orange Bowl, apparently Clemson's property, also could be wide open now that the Tigers have been smeared 21-0 by Miami (Fla.), another NCAA probationary. Orange Bowl officials were to meet today to discuss whom to recommend from the Atlantic Coast Conference. South Carolina is a dark horse along with four-time loser Duke. The Dukes were upset by South Carolina at season's start and since have lost only to well-regarded Tennessee, Georgia Tech and Pittsburgh.

South Carolina, with a 6-3 after defeating Maryland 13-0, was beaten 7-0 by Clemson earlier. Duke is 4-4-1 after a 26-0 decision over Wake Forest—which meets South Carolina Thanksgiving Day.

Iowa Beats Buckeyes

Iowa, which beat Oregon State 14-13 early in the season, clinched its first Rose Bowl trip with a savage 6-0 victory over Ohio State, which had a record won 17 in a row in Big Ten play. It gave Iowa at least a share of its first title since 1922, and an Ohio State defeat by Michigan this week would give it to the Hawkeyes whole hog.

Michigan battered Indiana 49-26 in a futile hope for a Rose Bowl chance. Minnesota, also looking for the bowl trip, "wasted" a 14-13 upset of Michigan State.

Oregon State needed a touchdown in the final minutes to defeat surprising Idaho 14-10, while Stanford bowed out of the bowl picture with a 34-13 loss to Washington.

Tennessee trailed for the first time this season, but finally got moving to bang Mississippi, the defending SEC champ, out of the title picture 27-7. Tech, meanwhile, was mauling Alabama 27-0.

Pitt Whips Army

Navy defeated Virginia 34-7 and Pitt, a confirmed Eastern power and only team to beat Syracuse (14-7), beat Army 20-7. Wyoming, joining Tennessee and Oklahoma as the only remaining teams, sneaked past Brigham Young 7-6 for its 10th in a row.

In the big game of the year in the East, Yale surprised, shocked and smacked Princeton 42-20, to move into a one-game lead in the Ivy League over the Tigers, who had gone through seven games unbeaten and unbroken.

GALEN MCGREGOR

McGregor Will Get Trial With Florida Team

Galen Is Assigned To Ft. Walton Beach

Galen McGregor, former Fort Hill High School baseball, basketball and football player, who signed a contract with the Washington Senators in July, has been assigned to the Fort Walton Beach (Fla.) Club, of the Class D Alabama-Florida League for a tryout next spring.

Ten other youngsters signed by the American League club are slated for tryouts with the same farm team.

McGregor, a recent newlywed, is a left-handed thrower and hitter and has played first base in recent years for Fort Hill in the Bi-State Conference, Fort Cumberland Post No. 13 in the Mountain District American Legion Junior League and with Barreille's Bombers in the Pen-Mar League this year.

During his four seasons at Fort Hill High School, McGregor earned a batting average of .306. He played Legion junior ball for three seasons and pounded the ball at a .377 clip, leading the league in 1954 with an average of .484. Galen hit .309 this year with Barreille's champions in the Pen-Mar League.

His batting average with the three teams has been .321-127 hits in 396 official at bats.

Here's how McGregor fared at the plate since he broke in at Fort Hill in 1953:

Barton Has Ribs Broken In Fall While Hunting

Harry J. Barton, dairyman and general manager of the Cumberland Fair Association, suffered two broken ribs when he fell during a hunting trip the past weekend.

Barton is in harness now but he says he is not ready for the races.

The injury will prevent his attending the annual Maryland Turf Writers dinner scheduled for tomorrow in Baltimore but several other officials will represent the local association.

Redskins Scalp Front-Running New York Giants, 33-7

Washington Notches 4th Win In Row

Sam Baker Kicks 49, 20 Yard Goals; Wells Gets 2 TDs

By WHITNEY SHOEMAKER
WASHINGTON, Nov. 18 (AP)—The marauding Washington Redskins scalped another of pro football's front-runners today, slicing up New York's defenses for a 33-7 victory that brought to a jolting halt the Giants' five-game winning streak.

The Redskins charged into command from the kickoff and rolled up a 20-7 margin before the humbled Giants could score.

Billy Wells set off the rout with a 15-yard touchdown sprint over his own right end. He was credited with another tally later when he jumped on a Washington fumble in New York's end zone.

Washington added the crusher in the last period with a 51-yard pass play from Al Dorow to end Steve Meilinger, with Meilinger dashing crossfield for the final 40 yards.

Boots 49-Yard Goal

Sam Baker embellished the victory with a 49-yard field goal that set a record for distance for both the Redskins and Griffith Stadium. The 26,261 paid customers also saw Baker kick a 28-yard goal and boot three extra points. Johnny Carson scored the Skins other touchdown on a 7-yard pass from Dorow.

Bob Schnelker grabbed a pass from Charley Conerly to account for the Giants' lone score at the close of an 85-yard jaunt in the third period.

Win 4th Straight

The Giants held their leadership in the National Football League's Eastern Conference as the trailing Chicago Cards lost to Pittsburgh, 14-7. But the third-place Redskins crept up still farther on the pace-setters with their fourth straight win after a sorry beginning of three straight losses—and their third straight conquest of a division leader.

On the turf, the Giants gained only 74 yards to 231 for the Redskins, who were disdainful of the New Yorkers' previous league leadership in rushing defense.

Steelers Score Upset, Beat Cardinals, 14-7

Baldacci And Rogel Star For Pittsburgh; Gary Glick Injured

By JOE BRADIS

PITTSBURGH, Nov. 18 (P)—Lou Baldacci and Fran Rogel, a pair of hard-hitting backs, powered the Pittsburgh Steelers to a 14-7 upset victory over the Chicago Cardinals today in a National Football League game.

The Steelers, coming to life after two straight setbacks, afly intercepted three passes and recovered three fumbles in handing the Cardinals their third straight loss and preventing them from tying the New York Giants for the Eastern Conference lead. The Giants lost 33-7 to Washington.

Steelers - Surprise

Showing a surprising offense, the Steelers moved 45 yards in three plays for a touchdown in the first period the first time they lined the ball.

Rogel picked up three yards, Baldacci raced 29 to the 13 and on the next play Rogel cut back through tackle for the touchdown.

The clincher was Jack Butler's touchdown sprint into the end zone in the third period after picking up a fumble by Chicago's Johnny Olszewski.

Glick Is Injured

Gary Glick, who made both Steeler conversions, suffered a possible fractured cheek in the final quarter.

The Cardinals mustered only three drives, scoring on the third thrust, a 45-yard pass from Lamar McHan to Ollie Matson in the final quarter with only 2½ minutes left.

The Steelers, playing before a home crowd of 24,086, stopped two other Cardinal drives, one on the three in the third quarter and one on the five in the final period.

Rogel and Baldacci gained 222 of the total 241 yards rushing by the Steelers. Rogel picked 112 yards in 17 attempts and Baldacci, who made only five yards in seven previous games, ended up with 110 in 16 tries.

Chicago Cards 0 0 0 7—7

Pittsburgh 7 0 7—14

Cardinals scoring—Touchdown: Matson (45, pass from McHan). Conversion: Summerall.

Steeler scoring—Touchdowns: Rogel (13, run); Butler (6, run with recovered fumble). Conversions: Glick 2.

Keeping Up With Hollywood

by Louella Parsons

HOLLYWOOD, Nov. 18 (INS)—Even the excitement at MGM over the upheavals in company management isn't keeping Dore Schary and Sam Zimbalist from being up in the clouds over "Never So Few," an unpublished novel by Tom Chamale which Doris has just bought. He bought it from the galley proofs and gave it to Zimbalist to prepare for production.

Sams tells me, "This is Chamale's first novel, an adventurous thriller about the building of the Burma Road in World War II. Although it's early to discuss casting, I'd like to have William Travers for the role of the British officer and Ava Gardner would be perfect for the girl."

Hollywood's first production casualty because of the war threat will probably be "Bombers B-52" at Warners. Preparations had all been made to go to Castle Air Force Base at Merced, California, but those plans had to be held in abeyance because all B-52 bombers have been alerted for active duty.

Mike Todd, who is really riding the financial crest of the wave these days, made an offer of \$600,000 to take half of the sponsorship of the Academy Awards TV program for this year. George Seaton, president of the academy, explained to Todd that last December, NBC sold the time to Oldsmobile when it seemed that the industry could not finance the show.

After the riot at the Paramount Theatre in New York at the opening of Elvis Presley's picture, "Love Me Tender," Colonel Tom (Hadacol) Parker lost no time in flying back to Hollywood to talk to Lew Schreiber about his boy making another one at 20th. The studio was receptive, but I hear that Elvis' price has gone up, up, up. In the course of the conversation, the colonel dropped the information that he was also going to talk to another studio about a picture.

Teach yourself to be graceful. With grace comes poise that means so much to charm.

Secrets Of Charm

by John Robert Powers

Unconscious Grace Can Be Learned

Everyone's so likely to know it when you're not sure of yourself. Uncertainty's so difficult to hide. For one thing, you're awkward, inclined to stumble, trip, bump into things or to knock something to the floor.

Psychologists deal with deep-seated insecurities that undermine self-confidence — they're not in the province of the beauty and charm expert. But psychologists recognize the value of training that helps the unsure to handle herself well, to move gracefully by habit, and often recommend such training. Dancing and varied exercise can be a great help in developing the outward appearance of composure that contributes much to inward composure.

What do you bid now?

A—Three spades. A bid of two spades would not be sufficiently aggressive and might indicate a mere desire to compete for the part score. Some effort should be made to move toward game and the jump bid may clarify the picture considerably.

The bidding has proceeded:

South West North East

Pass Pass 1 club Pass

What do you bid now?

A—One spade. We sometimes stretch a point to make a jump rebid in no more than 18 instead of 19 card points. But we are not inclined to do so when it involves suppressing a good four card major. The risk in rebidding only one spade is ever so slight, for if partner must pass, our game pass is not forcing.

A—Two spades. Up until now you have sounded like a person with a very minimum opening bid, and while your values do fall into the 18 range, the one trump rebid, your points are of the gilt-edged variety and include an excellent fit for both of partner's suits. Game is quite probable even opposite a rather weak hand and a jump bid is necessary to convey this message to partner.

Marine Corps Seeks
Aviation Recruits

Aviation training is now open to a limited number of applicants for enlistment in the regular Marine Corps, said S. Sgt. S. K. Branson, local recruiter.

Young men enlisting under the new program are guaranteed assignment to an aviation school for training upon completion of re-

cruit training and individual combat training, unless they voluntarily request assignment to other duties in the Marine Corps.

Sgt. Branson said recruiting officers have been authorized to specify on the records of new recruits that they have enlisted for aviation training.

Applicants for aviation training will receive valuable technical training. Promotional opportunities are excellent in the aviation field, he said.

Complete details on the program are available at the local Marine recruiting station, Room 303, Post Office Building.

Forester In Charge

The initial development phase will involve the building of a modern picnic area near Chaneyville. It is scheduled to be completed and ready for use by summer. The Department of Forests and Waters will do the work under the supervision of district forester Howard Adams. Adams will also have charge of the facilities when they are completed.

Ray Repligole, Democratic chairman for Bedford County, said that the planning and surveying of the tract during the past year had been done jointly by the Department of Forests and Waters and the Department of Highways. A greatly modernized network of roads into the largely isolated area will take shape as the development of recreational facilities proceeds.

Many Streams In Area

Surveys of the tract revealed that available water sources are more than adequate for the impounding of huge quantities of water, Repligole stated. He said that it was likely that a lake or lakes would be created as the plans proceed toward the announced goal of "maximum development of the tract into modern recreational facilities."

Depending on the weather, work on the picnic area should start within the next several weeks. Ground will be cleared and other features of a modern picnic area will be erected.

The body will remain at the Scarpelli Funeral Home.

Today's Sermonette

(Continued from Page 12)

Rest is part of a man's reward but it is also an insistent demand of the Bible. Four times in the book of Exodus a day of rest is commanded and the penalty for working on that day is given as death. But rest is a continuing need, and Jesus himself called his disciples aside after a difficult mission for rest.

Play and study are also vital to our well-being and are therefore to be considered good use of time.

But with all these the program of life is not complete. In each life there must be time for prayer and meditation, worship and service for God.

Roswell Long, discussing this matter, gives five suggestions:

(1) I will put time to worship God in every day. This may be

private or family worship or

worship in the church. (2) I will

put time in my day for solitude.

(3) I will put some time in

my daily program for making

and keeping friendships.

Former Local Man Killed In Auto Accident

Smashes Into Tree Near Baltimore

A former local man was fatally injured Saturday evening when the car he was driving went out of control and hit a tree on Bel Air Road outside of Baltimore.

He was Charles Robert Hixenbaugh, 24, who had been working for the Chesapeake and Potomac Telephone Company at Annapolis.

Two girls who were riding with Hixenbaugh were injured slightly.

Born at Cresaptown, he was a son of George F. and Margaret L. (Wampler) Hixenbaugh, 410 Columbia Street. He attended Allegany High School and served in the Air Force four years, having been discharged two years ago.

Surviving besides his parents is a daughter, Roberta Ann, Mt. Clemens, Mich.; four brothers, William E., Fairfax, Va.; George F., city; John R., Baltimore, and Harry E., Hixenbaugh, serving with the Air Force in Saudi Arabia; three sisters, Mrs. Arthur Long, Potomac Park; Mrs. Ted Dragula, McKeesport, Pa., and Miss Helen M. Hixenbaugh, at home.

Also surviving are his paternal grandparents, Mr. and Mrs. John W. Hixenbaugh, Frostburg, and his maternal grandmother, Mrs. Anna Wampler, Eckhart.

The body will be at the Hafer Funeral Home this afternoon.

Nine Persons Hurt

In a series of other highway accidents which occurred in the area over the weekend, nine persons were injured.

Charles A. Ritter, 229 Paca Street, and Mrs. Eva Mae Blake, 9 North Lee Street, were admitted to Memorial Hospital late Saturday night with injuries sustained in a crash at Sand Flat on Braddock Road just west of the city limits.

Hospital attaches said Ritter was "resting comfortably" last night. He suffered a left knee injury, and injuries to two of his fingers on his right hand.

Mrs. Blake, who is reported in "good" condition suffered a black eye in the crash.

Two youths were admitted to Sacred Heart Hospital late Friday night when the car in which they were riding careened from Vocke Road, hit a pole, and then a culvert.

Police said the car was operated by David John Zais, 17, of 129 Paca Street, who suffered a triple fracture of the right ankle, concussion, gouge wounds of the forehead and hands, multiple lacerations of the knees and body.

Suffers Concussion

A passenger in the car, Gene Willets, 16, of 513 Valley Street, suffered a concussion, cuts of the face and scalp, and bruises and abrasions of the body.

In a third accident, five persons were injured when the car in which they were riding hit another on U. S. Route 40 in the Belle Grove area.

Russell Clingerman, 17, of Artemas, Pa., driver, suffered lacerations of the right forearm and injuries to his back, and was admitted to Sacred Heart Hospital.

Robert Smith, 17, Clearville, Pa., sustained a right shoulder injury, and Paul Smith, 42, of Artemas, complained of pain in his right hip. Donald Wallizer, 17, of Flintstone, suffered lacerations of the forehead and scalp.

All three were admitted. Thomas Emery, 18, of Clearville, who suffered lacerations of the right knee and left upper arm, was treated and discharged.

Farmers To Vote On Referendum

Maryland farmers will go to the polls again on December 11, this time to vote in a referendum to decide on the kind of corn program they want next year.

Chester S. Bradley, chairman of the state Agricultural Stabilization and Conservation Committee, said the issues at stake are whether the farmers want the soil bank acreage program or the acreage allotment program during the coming year.

Injured Pedestrian Is Still Critical

William Keller, about 45, of Moorefield, W. Va., who was hit by a car Saturday night on Route 220 just north of that community, is slightly improved although still on the critical list at Memorial Hospital where he was admitted Saturday.

State Police said the driver of the auto was Delmas Wilkins, about 18, also of Moorefield.

Keller was struck in front of Ben's Cabins, as he apparently attempted to cross the highway, State Police said.

Keller suffered numerous injuries. It was misty and the road was wet and slick at the time of the accident, witnesses reported.

Former Agent Here To Attend Conference

Miss Joanne W. Reitz, former home demonstration agent here, will be one of seven members of the University of Maryland's College of Agriculture faculty who will attend the 34th annual Agricultural Outlook Conference in Washington, D. C., next week.

Speech Contest Winner

The winner of the "I Speak for Democracy" speech contest finals yesterday afternoon was Miss Carol Eaton, a junior at Bruce High School in Westernport. She is shown (third from left) being congratulated by Kenneth J. Williams, president of the Cumberland Junior Association of Commerce, sponsors of

the project. Other winners (left to right) are Miss Judy Marshall of Valley High, Lonaconing, Stanley Oldaker, Fort Hill High School, Miss Eaton, and Miss Dorothy Vose, Allegany High School. Students of 11 high schools of the county participated in the annual event.

Keegan Says Incentives Needed In Police Dept.

More incentives will have to be offered if Cumberland is to keep its police and fire departments fully manned, Police and Fire Commissioner William V. Keegan announced yesterday.

He pointed out that in last week's Civil Service

examinations, there was only one applicant for the police test, and three men are needed.

There was a time, he said, when at least a dozen men applied whenever a police test was offered.

One of the solutions, he said, is to give policemen an opportunity for advancement, and to offer salaries in line with the responsibilities of the positions.

Present pay scales, he said, do not offer sufficient boosts in salaries to give the men an incentive to go up.

A patrolman now gets \$296.50 a month; sergeant, \$314.50; lieutenant, \$333; assistant chief, \$366; and chief, \$455.50.

Commissioner Keegan pointed out that current wage scales provide the same salary for patrolman and detective, while the latter position should pay the same as sergeant.

He said he would try to put the positions of detective and sergeant on the same level.

Police said the youth walked into the store with his hands in his pockets, ordered the clerk, Mrs. Marie Imes, to place the money from the cash register in a paper bag.

She obeyed him. He took the bag and walked down Williams Street toward Park Street, Mrs. Imes informed police.

The register contained two \$10 bills, seven \$5 bills, and \$25 in \$1 notes, plus some change, she said.

It is not known whether the youth was armed, police said.

Today's Sermonette

Look carefully then how you walk, not as unwise men but as wise, making the most of the time . . . Ephesians 5:15, 16.

Today's Sermonette is a digest of a sermon preached at First Christian Church by the minister, Rev. Carl Johnson Jr. The sermon digests are being prepared through the cooperation of the Cumberland Ministerial Association.

Stewardship Of Time

By REV. CARL JOHNSON JR.

It has been said "The supply of time is a daily miracle . . . You wake up in the morning, and your purse is magically filled with 24 hours of the unmanufactured tissue of life. It is yours! the most precious of your possessions."

But what do we do with this precious pocketful of hours? Kill them! Waste them! Misuse them!

What we do with time is of the greatest importance . . . It is God given . . . It is perishable . . . It cannot be saved up for future use. It cannot be borrowed from tomorrow. We may live on tomorrow's pay check today but we cannot live on tomorrow's time.

What we do then, with time, is of the utmost importance. For it is work which creates interest in life."

Men take a variety of attitudes toward work perhaps well revealed in an old story. A spectator watched three men at work. He asked the first what he was doing and the reply was "Working for 10 shillings a day." The same question brought this reply from a second workman, "I'm cutting stone." And from the third worker, "I'm building a cathedral."

But regardless of the attitude, each was employed in honest work and was making a proper use of time.

Washington Gladden wrote a Worker's Pledge which applied if we will go far toward a solution to the time and work problem: "One thing I am resolved upon: I will not be a sponge or a parasite, I will give an honest equivalent to what I get. I want no man's money for which I have not rendered full return. I want no wages than I have not earned. If I work for any man or any company or any institution, I will render full, ample, generous service. If I work for the city or the state or the nation, I will give my best thought, my best effort, my most conscientious and efficient endeavor. No man, no body of men shall ever be made poor by their dealings with me. If I can give a little more than I get every time, in that shall be my happiness. The great Commonwealth of human society shall not be the loser through me. I will take good care to put into the common fund more than I take out."

Then the man who would be a good steward of his time will spend part of it at honest work. A part of the punishment of Adam in the Garden of Eden was that he should earn his bread by the sweat of his brow.

But all work is not a curse to all people. On the wall of the office of Dr. Charles Mayo was kept the following motto: "There is no fun like work." Of these words Mayo wrote: "I have always liked that motto, for I believe in it. To be without work

Speech Defects Impair Many Area Children

There are more children in Allegany County public schools with speech defects than there are in any of the other fields of special education problems. Miss Jean Camper recently told members of the West Side Parent Teacher Association. One child of every 700 has a speech defect, she said.

Miss Camper outlined the program of special education in the county, explaining that work is being done to correct speech defects in almost every school, and special teachers in this field are employed. The program, she said, is making excellent progress, but more specially trained teachers are needed.

Other fields of the department's work involve special health problems which are usually handled by notices to parents. If economic problems exist, such organizations as the Lions Club provide glasses and eye operations, the Civitan provide operations for tonsils and adenoid patients, and the Health Department cooperates in many other problems.

Present pay scales, he said, do not offer sufficient boosts in salaries to give the men an incentive to go up.

A patrolman now gets \$296.50 a month; sergeant, \$314.50; lieutenant, \$333; assistant chief, \$366; and chief, \$455.50.

Commissioner Keegan pointed out that current wage scales provide the same salary for patrolman and detective, while the latter position should pay the same as sergeant.

He said he would try to put the positions of detective and sergeant on the same level.

The schools provide special textbooks with large type for children with severe sight impairments, and special seating and other things are done for those with hearing problems.

Religion Project Is Started

Patrons at some 55 local restaurants will have vivid reminders this week that Thanksgiving Day is almost here.

In the kickoff of a Religion in American Life project, members of the Cumberland Junior Association of Commerce today and tomorrow will distribute some 3,000 cards bearing typical blessings of the various religious faiths to over 50 restaurants in and around Cumberland.

These cards can be folded and placed at tables throughout each restaurant. On one side, under a caption "Thanksgiving At Your Meal," are suggested blessings to be said by Protestants, Roman Catholics and Jewish people.

On the opposite side of the card is a picture of a young man and woman and their two children in a church. The caption says "Build a Stronger, Richer Life. Worship Together Every Week!"

Dr. William S. Firey, chairman of the Jaycees project, emphasized that this is only the first step in the program to develop a greater religious consciousness on the part of all residents of the area.

The Jaycees nationally are operating in this program with leading clergymen and laymen of the various faiths.

Members of Dr. Firey's committee are Robert A. Mathews, Eldred W. Steinmann, Henry Sauer, James L. Conlon, Casper R. Taylor Jr., Raymond H. Lapp Jr., Francis Deremer, Earl Balsky, Ronald J. Screen, Albert D. Darby Jr., and the Jaycee president, Kenneth J. Williams.
